

KS4 Long Term Plan 2020-2021

Subject: Music

Exam Board: Edexcel

Statement of Intent

The Music Department aims to provide students with opportunities to learn about different genres and cultures of music through both practical and theoretical ways. Students will also be guided on how best to improve and develop confidence as well as creativity in their own work. They will be encouraged to experiment and take risks with their work in a supportive environment.

Music at St Paul's is both practical as well as linked to theory where students have opportunities to study music from different time periods and cultures developing a critical ear as well as knowledge about music. Students will also develop practical assessment skills which can enable them to become better practitioners in their own practical work.

Statement of Implementation

The curriculum in Music is planned and delivered by a specialist teacher at all key stages.

KS3 schemes of work look at musical skills in three areas, performing, composing, and listening/appraising which follows the National Curriculum. These skills are taught both in a practical and theoretical way so that students become confident in different aspects of music. KS4 studies the Edexcel Gcse specification and aims to develop skills learnt at KS3 in further detail allowing them to continue past this KS if they wish.

There is one main music room and practice room. Students have access to keyboards and percussion instruments. There is also a music cupboard with guitars, both electric and acoustic, as well as ukuleles.

KS3 lessons are taught once a week in mixed ability groups and will study approximately one topic per $\frac{1}{4}$ of a term where they will develop performing, composing and listening/appraising. Year 9 are taught in a 'creative arts' option block and also have 1 x 50 minute lesson per week.

KS4 groups are taught in option groups and have 3 x 50 minute lessons per week
