

This is our second GCSE results day where the achievements of the students have not been assessed through the traditional method of final exams at the end of the GCSE course. This year's process has been based upon grades awarded by schools, based on the evidence available to them that students had completed by the end of their courses.

Despite this change to the process for the second year running there has been some incredible success for youngsters across the borough and we would like to celebrate in particular the success of following students who achieved mostly Grade 9 and 8s in all their GCSE subjects.

Traditionally at this time schools would share with you school performance data, including pass rates and subject performance measures. This year however The Spelthorne Secondary Schools are in agreement that due to these unusual circumstances it is not the right time for us to share this data and our combined focus should be on the community of young people we serve.
